

I enjoy the benefit of listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety of programming and sound quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am able to listen to on my radio. I expect you to and respectfully request that you, the Federal Communications Commission, reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that i want, enjoy and deserve. Thank you,
